

# WARNING\*

## Say No to CO!

Protect yourself and your family from carbon monoxide poisoning (called CO) when using pressure washers and other gasoline-powered tools.

- You cannot see or smell CO, but it can kill you or make you sick. **CO poisoning can occur in minutes.**
- Be safe when you're using these machines.

### BE SAFE:

- **NEVER** use gasoline-powered tools inside homes, garages, carports, basements, or other enclosed space.
- Keep pressure washer engines outside and away from doors, windows, and vents during use.
- Read product directions for other safety tips.
- Use CO detectors in your home, especially near bedrooms.
- Look for symptoms of CO poisoning:

Headache

Confusion

Fatigue

Seizures

Dizziness

Loss of consciousness

Nausea/vomiting

Death

***Get out of the house and seek medical help immediately if you or family members have these symptoms!***
